CARRER OBJECTIVE

Motivated and detail-oriented Frontend Web Developer with a strong foundation in HTML5, CSS3, and JAVASCRIPT, complemented by a passion for creating seamless and responsive web experiences. With a Bachelor's degree in Mechanical Engineering. I possess a keen eye for design and usability. Proficient in optimizing web pages for speed and scalability, I am committed to adhering to web design standards and best practices. Collaborative by nature, I thrive in team environments, working closely with designers, back-end developers, and other stakeholders to deliver high-quality web solutions. I am dedicated to continuous learning and skill enhancement through training, research, and experimentation, eager to contribute to a dynamic and innovative team.

EDUCATION

B-Tech in MECH | *Abdul Kalam institute of technological & sciences*

C.G.P.A: 7.01 | 2021 - 2024

DIPLOMA in MECH | *Anu Bose institute of technology*

C.G.P.A: 8.8 | 2018 - 2021

PROJECTS

ZETY ATS RESUME CHECKER CLONE

- Built a visually identical clone of the Zety ATS Resume Checker using HTML, CSS, and GSAP
- Added custom animations not present in the original site, showcasing creativity and attention to detail
- Demonstrated frontend development skills in replicating the original interface and enhancing it with unique features
- Utilized GSAP for smooth and engaging animations, highlighting expertise in animation design and implementation

AMAZON HOME PAGE CLONE

- Technologies Used: HTML, CSS
- Developed a clone of the Amazon home page using HTML for structure and CSS for styling, closely replicating the original design.
- Focused on accurately replicating the layout and design elements, including the navigation bar, product grid, and footer.
- Ensured the code was well-organized and maintainable, following best practices in front-end development.
